# TUBS MODULAR

*Nahtrang Disseny*

(EN) Tubs Modular seeks ways to structure open spaces spatially, to create lattice shapes with air and light, and linear shapes that enhance the roominess of a space. A very visually appealing family, it plays with the lines within a space. As the piece takes shape, it becomes a living element capable of infinite expansion, but also be designed in smaller versions and adapted to smaller spaces. Tubs Modular is a highly flexible and technically sophisticated family of products, ensuring maximum user control within a slim profile.

(ES) Tubs Modular busca una manera de estructurar el vacío de un espacio, de crear formas reticulares con el aire y la luz y generar formas lineales que potencian esa sensación de amplitud. Una familia muy poética visualmente, que juega con los planos del espacio. A medida que se da forma a la pieza, se va convirtiendo en un elemento vivo que se puede aumentar infinitamente, pero que también se puede construir en versiones más pequeñas y adaptar a espacios más reducidos. Tubs Modular es una familia técnicamente sofisticada y muy flexible, permitiendo el máximo control del usuario en una mínima sección del perfil.

(FR) Tubs Modular cherche un moyen de structurer le vide d'un espace, de relier l'air et la lumière et de générer des formes linéaires qui renforcent cette sensation d'ampleur. Une famille visuellement très poétique, qui joue sur les plans de l'espace. À mesure que la pièce prend forme, elle devient un élément vivant qui peut croître à l'infini mais qui peut aussi être construit en version réduite et épouser des espaces plus limités. Tubs Modular se présente comme une famille techniquement sophistiquée et très flexible, qui permet un contrôle maximum de l'utilisateur dans une section minimale de profilé.

NEW ACCESSORY  
NUEVO ACCESORIO  
NOUVEL ACCESSOIRE

[EN] Grok's most modular family is growing with a new felt accessory that gives spaces greater versatility and decorative flair. Available in two measures and with a wide range of colours that can be combined with each other (grey tones are standard and the rest on request), the new Tubs accessory makes the luminaire stand out as a decorative piece in its own right, while also providing insulation against excess noise.

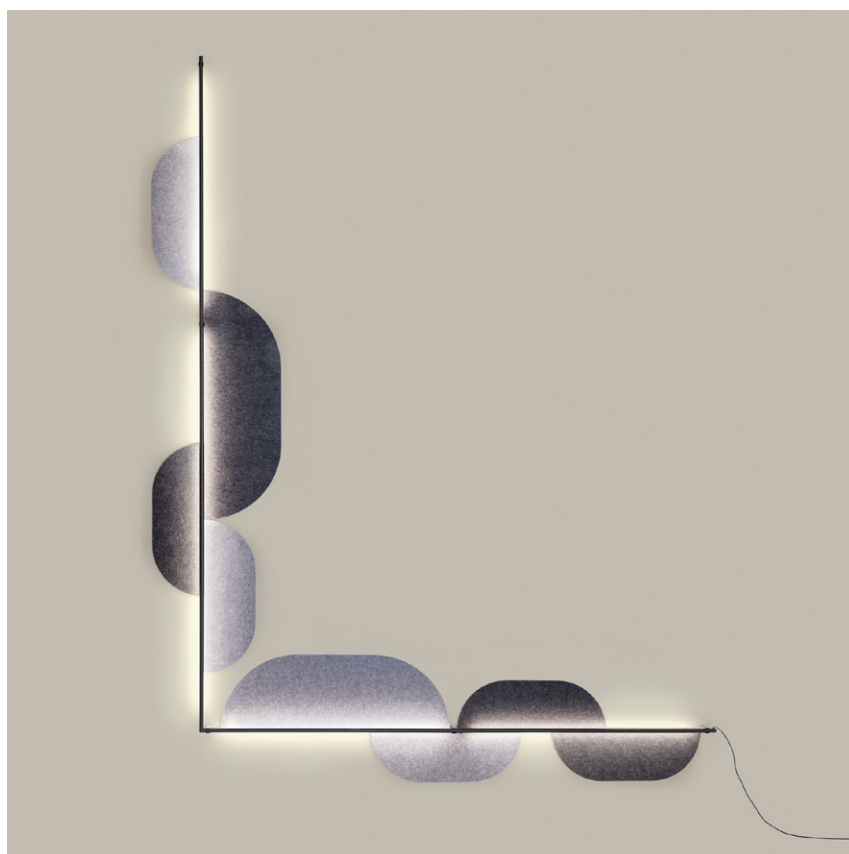

Tubs Modular is thus presented with a personality of its own, continuing to experiment with volumes and forms, with no limits to creativity and the space's expression.

[ES] La familia más modular de GROK se amplía con un nuevo accesorio de fieltro que dota a los espacios de una mayor versatilidad y percepción decorativa. Disponible en dos medidas y con una extensa gama de colores combinables entre sí (los colores grises como standard y el resto bajo pedido), el nuevo accesorio de Tubs permite que la luminaria destaque como una pieza decorativa en sí misma, resultando además ser un aislante del exceso de ruido.

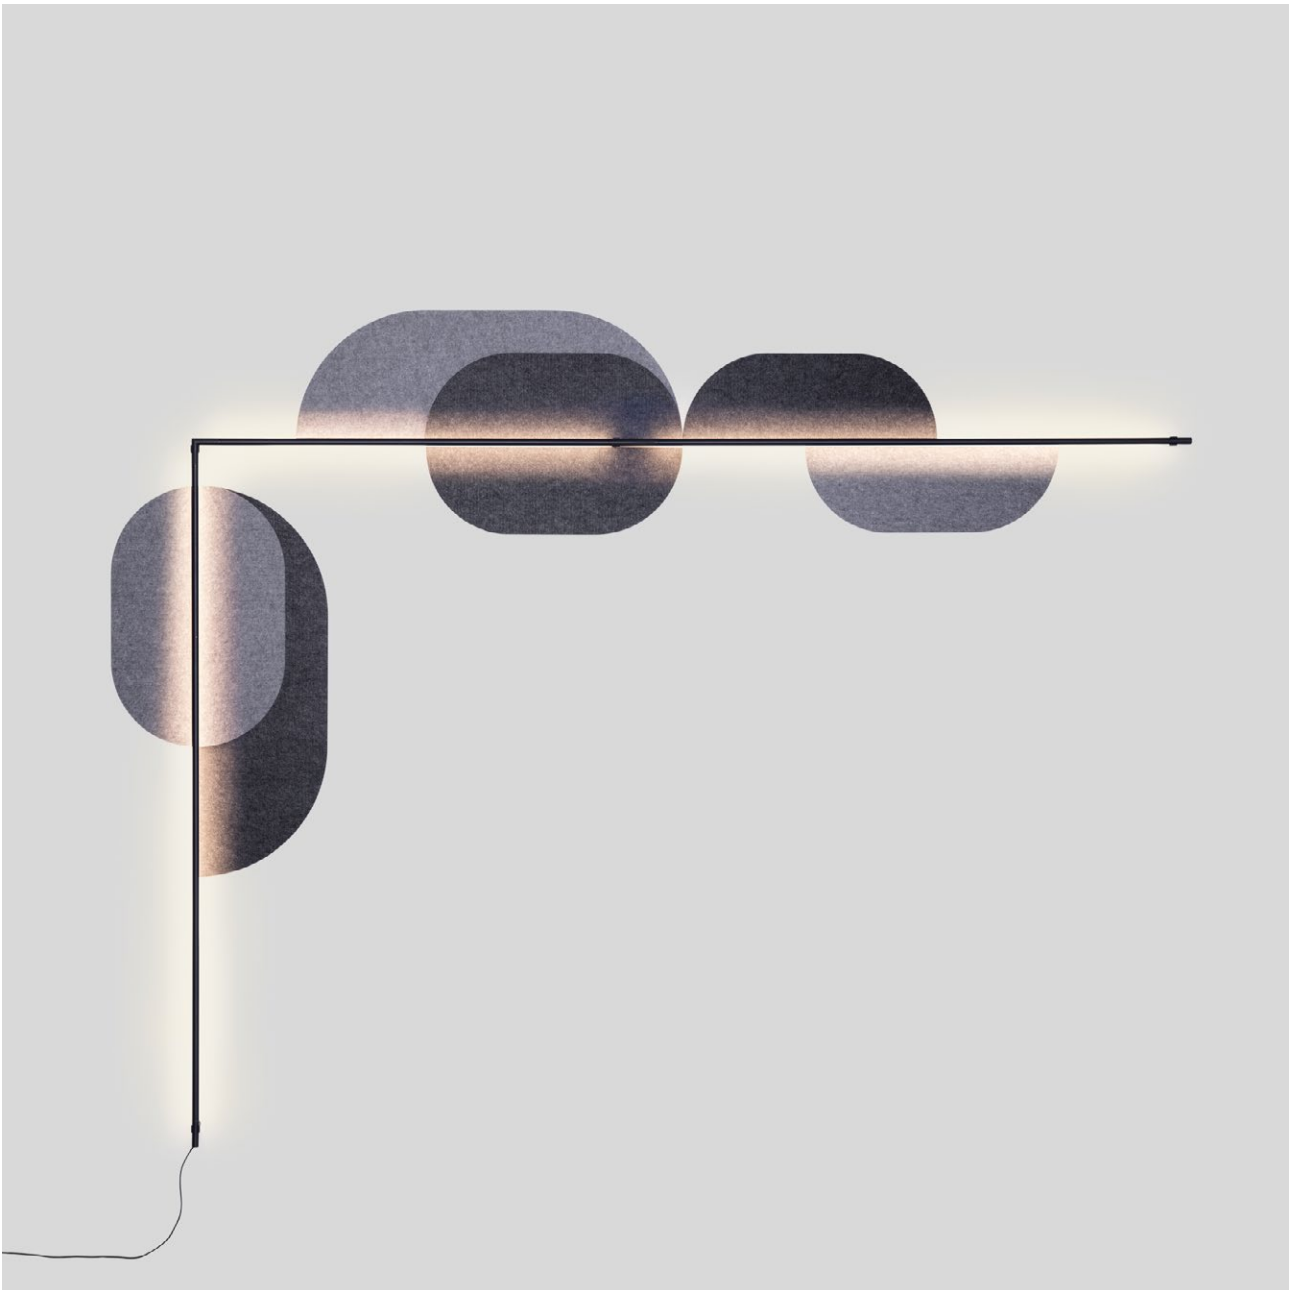

Tubs Modular se presenta así con una personalidad propia que sigue jugando con los volúmenes y las formas, sin poner límites a la creatividad y a la propia voz del espacio.

[FR] La famille la plus modulaire de GROK s'agrandit avec un nouvel accessoire en feutre qui confère aux espaces une plus grande polyvalence et une meilleure perception décorative. Disponible en deux tailles et avec une large gamme de couleurs combinables entre elles (coloris gris en standard et les autres sur demande), le nouvel accessoire Tubs permet au luminaire de se distinguer comme une pièce décorative à part entière, tout en isolant très bien du bruit.

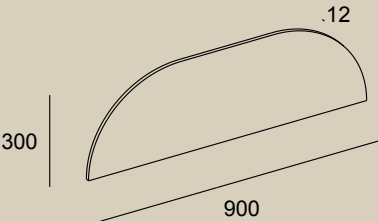

Tubs Modular se présente donc avec une personnalité marquée qui continue de jouer avec les volumes et les formes, sans fixer de limites à la créativité ni à l'espace.

# TUBS SUSPENSION

*Nahtrang Disseny*

(EN) With its unique design, the geometry of its pyramid-shaped lines trap the light inside, delicately highlighting and creating order wherever it is used. Its soft but powerful light makes it the perfect versatile accompaniment for large spaces.

(ES) De diseño único, su juego geométrico de líneas piramidales atrapa la luz en su interior marcando y ordenando con delicadeza los espacios donde se instala. Su tenue pero potente luz la presenta como una pieza versátil ideal para grandes espacios.

(FR) Avec un design unique, son jeu géométrique de lignes pyramidales capte la lumière à l'intérieur pour marquer et ajuster délicatement les espaces où elle est installée. Sa ténue, mais puissante lumière la présente comme une pièce polyvalente idéale pour les grands espaces.

<sup>[EN]</sup> Wide range of movement: both light source and light axis swivel. <sup>[ES]</sup> Amplia capacidad de movimientos: rotación tanto de la fuente de luz como de su eje. <sup>[FR]</sup> Large gamme de mouvements : rotation tant de la source lumineuse que de son axe.

# TUBS TABLE

*Nahtrang Disseny*

(EN) Tubs is a desk lamp that plays with light, which casts geometric shapes. The linear light source has a broad capacity for movement, providing the space with energy and character. Its black marble base gives it an elegant and high-quality look. This is a very versatile piece, whether for more household, leased or office spaces.

(ES) Tubs es un sobremesa que representa el juego con la luz, que permite dibujar formas geométricas. La fuente de luz en forma lineal tiene una amplia capacidad de movimientos, dotando de dinamismo y carácter al espacio. Su base es de mármol negro, lo que le confiere un aspecto de distinción y de gran calidad. Una pieza muy versátil, ya sea para espacios más domésticos, contract u oficinas.

(FR) Tubs est une lampe à poser qui permet de jouer avec la lumière et de dessiner des formes géométriques. La source de lumière sous forme linéaire possède une grande capacité de mouvement qui confère dynamisme et caractère à l'espace. En marbre noir, son socle lui donne un aspect distingué et de grande qualité. Pièce très polyvalente conçue pour des espaces plus domestiques, ainsi que pour l'équipement « contract » ou de bureaux.
